PRESENT'S MEMORIAL

FIELD DAY WAS A GREAT SUCCESS!
YOURS TRULY WENT INTO IT A BIT EXHAUSTED
AND EMERGED REFRESHED. THE GENERAL
ORGANIZATION WAS ABOUT LIKE LAST YEAR:
JOHN WB7TEM AND MYSELF WERE PHONE
CAPTAINS, WHILE K6YT WAS CW CAPTAIN.
ANDY VE3FZK AND I, WITH HELP FROM K6MPN,
PLAN TO DUPE THE LOGS BEFORE THE 6 JULY
MEETING, SO WE SHOULD HAVE CONCLUSIVE
RESULTS THEN. TENTATIVE RESULTS ARE
ABOUT THE SAME AS LAST YEAR. I FAILED
TO PROPERLY FASTEN THE 20 METER BEAM TO
THE MAST SO IT HAD TO BE TIED OFF WITH
A LINE, THANKS TO WB7TEM, TO PREVENT IT
FROM SWAYING IN THE WIND. BUT THAT
SEEMED TO BE THE ONLY EQUIPMENT HITCH.

STEVE N6YUE, ABLY HELPED BY HIS XYL
MELODYE N6YUM, MADE A CREDIBLE EFFORT
ON THE NOVICE STATION. FOREIGN CALLSIGNS
WERE THEIR SPECIALTY, AND SO MADE UP IN
DX WHAT THEY MAY HAVE LACKED IN QUANTITY.
CRAIG N6ITW LED THE SATELLITE GROUP WITH
RALPH WB6NNL PROVIDING CLOSE SUPPORT.
PERHAPS THE HIGHLIGHT OF MY FIELD DAY WAS
MAKING MY FIRST CONTACT ON SATELLITE. I
EVEN GOT TO DONATE A FLEA MARKET 70CM
AMPLIFIER TO THE CAUSE. NEEDLESS TO SAY,
IT WAS ALL QUITE EXCITING. PACKET AND
MESSAGE SUPPORT WAS SUPPLIED BY VE3FZK,
WHOSE ENJOYMENT OF EVERYTHING HE DOES IS
SO CONTAGIOUS. ANDY ALSO PROVIDED 5
NATURAL POWER CONTACTS WITH HIS
COMPLETELY SOLAR POWERED 2 METER STATION.
HOPEFULLY A COMPLETE FIELD DAY REPORT
WILL FOLLOW IN THE NEXT ISSUE OF
PARAGRAPHS. SO THOSE OF YOU WHO DIDN'T
MAKE IT MISSED A GOOD TIME. THANKS TO ALL!
DE WA6LNV

HAMS!

WHY RADIO AMATEURS ARE CALLED " HAMS "

From Florida Skip Magazine - 1959

Have you ever wondered why radio amateurs are called "HAMS " ? Well, it goes like this:

The word " HAM " as applied to 1908 was the station CALL of the first amateur wireless stations operated by some amateurs of the Harvard Radio Club. They were ALBERT S. HYMAN, BOB ALMY and POOGIE MURRAY. At first they called their station " HYMAN-ALMY-MURRAY ". Tapping out such a long name in code soon became tiresome and called for a revision. They changed it to " HY-AL-MU ", using the first two letters of each of their names.

Early in 1909 some confusion resulted between signals from amateur wireless station " HYALMU " and a Mexican ship named " HYALMO ". They then decided to use only the first letter of each name and the station CALL became " HAM ".

In the early pioneer days of unregulated radio amateur operators picked their

own frequency and call-letters. Then, as now, some amateurs had better signals than commercial stations. The resulting interference came to the attention of congressional committees in Washington and Congress gave much time to proposed legislation designed to critically limit amateur radio activity.

In 1911, ALBERT HYMAN chose the controversial WIRELESS REGULATION BILL as the topic for his Thesis at Harvard. His instructor insisted that a copy be sent to Senator DAVID I. WALSH, a member of one of the committees hearing the BILL. The Senator was so impressed with the Thesis that he asked HYMAN to appear before the committee. ALBERT HYMAN took the stand and described how the little station was built and almost cried when he told the crowded committee room that if the BILL went through they would have to close down the station because they could not afford the license fees and all the other requirements which the BILL imposed on amateur stations.

Congressional debate began on the WIRELESS REGULATION BILL and little station "HAM" became the symbol for all the little amateur stations in the country crying to be saved from the menace and greed of the big commercial stations who didn't want them around. The BILL finally got to the floor of Congress and every speaker talked about the "...poor little station HAM".

That's how it all started. You will find the whole story in the Congressional Record. Nation-wide publicity associated station "HAM" with amateur radio operators. From that day to this, and probably til the end of time in radio; An amateur is a "HAM".
